**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### **Summary**

Receipt of Applicants Remarks and Amended Claims filed on August 21, 2008 is acknowledged. Applicant has cancelled all previously presented claims and submitted new claims 16-17. Therefore, all outstanding rejections have been withdrawn. The following rejections and/or objections are newly applied. They constitute the complete set presently being applied to the instant application.

### ***Information Disclosure Statement***

Receipt of the Information Disclosure Statements filed on April 10, 2008 and April 21, 2008 is acknowledged. Signed copies are attached to this office action.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 16-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kito et al. (JP abstract 04-243825), in view of Omori (JP Abstract 04-149426A).

Kito discloses oral administration of tranexamic acid and ascorbic acid capable of effectively curing pigmentation (abstract).

Kito does not disclose the use of L-cysteine.

Omori discloses a solid pharmaceutical preparations comprising L-cysteine having effects on alleviation of dermal stains (abstract).

It would have been obvious to incorporate the L-cysteine of Omori into the composition of Kito since both references are attempting to solve the same problem, i.e. skin bleaching by oral administration. It is generally considered to be prime facie obvious to combine compounds each of which is taught by the prior art to be useful for the same purpose in order to form a composition that is to be used for an identical purpose. The motivation for combining them flows from their having been used individually in the prior art, and from them being recognized in the prior art as useful for the same purpose. As shown by the recited teachings, instant claims are no more than the combination of conventional components of utilized for skin bleaching/lightening. It therefore follows that the instant claims define prime facie obvious subject matter. Cf. In re Kerhoven, 626 F.2d 848, 205 USPQ 1069 (CCPA 1980).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
